TIS - 011

Previously only available through dealers, TIS-011 RELEASE AGENT is now available direct from the manufacturer. This means significant savings for you, the end user!

TIS-011 is made with the oil of U.S. grown SOY BEANS, and is biodegradable, replacing petroleum products that are potentially hazardous to the applicator, and definitely harmful to the environment.

TIS-011 Release Agent is approved by the State of Oregon (ODOT) for use as a Truckbed Coating Material.

Dillute with water
ODOT approved at 30:1 Ratio
Non-Corrosive
Non-Toxic
Non-Reactive
Biodegradable
VOC = 0 Grams per liter
Winter version will not freeze at -18° Celsius.
TIS-011 will recover if frozen.

No harmful vapors
Not a primary skin irritant
Cleans up easily with soap and water or waterless hand cleaners
May be used for pre-treating chains and equipment
TIS - 011 has been used successfully on northwest roads and highways since 2002
Use TIS-016CC for cleaning tools and equipment
